

# GOVERNMENT WINS IN FLOUR CASES

Two Verdicts Returned in Federal Court at Kansas City Against Millers Yesterday.

## PROTEST AGAINST TRIAL.

Flourmen Promise Dire Things to Farmers if Bleached Product Is Defeated.

Kansas City, Mo., July 6.—"We the jury find, that the flour seized was adulterated."

"We, the jury, find that the flour was misbranded."

These two verdicts were returned in the federal court here today by the jury that for more than five weeks had listened to the testimony for and against the charges of the government that 65 sacks of flour, bleached and sold by the Lexington Mill and Elevator company of Lexington, Neb., and seized by the government while in the possession of the purchaser, a grocer at Castle, Mo., were adulterated and misbranded.

The verdict returned after seven hours of deliberation, was a complete victory for the government which prosecuted the suit under the national pure food and drugs act.

The government charged that the flour was adulterated in that it was bleached by the Aisop process which makes use of nitric peroxide in bleaching flour. Misbranding was charged in that the flour seized was labeled fancy patent, which the government contended it was not, because it was not made from a first grade hard winter wheat.

Ernest Elliott, chief counsel for the millers, made the following statement after the jury had returned:

"This case was not one that should have been tried by a jury. I called personally upon President Taft and secured him all the millers desired was a fair test case."

"The president assured me the millers would not be hurried and that a fair test should be had. Immediately thereafter under orders of the attorney general these seizures began in different parts of the country. We started out to defend the cases on the assumption that the government would permit them to be tried before a jury."

## BOARD SETTLED CASES.

"President Roosevelt appointed a board of scientific men for just such purposes and the board has settled many cases that came up under the pure food law, such for instance as the bleaching of soda case. But when this case came to trial the attorney general refused to let this board act and insisted upon a jury trial."

Attorneys for the millers will file a motion for a new trial within 20 days. Arguments on it will be heard by Judge McPherson about September 1. Millers say that the bleached flour decision will handicap the farmer of the west to the extent of from \$15,000,000 to \$15,000,000 a year. They say the old differential of 5 cents a bushel in value in Chicago and St. Louis market will soon disappear.

They further say that farmers of Missouri, Kansas, Oklahoma and Nebraska will lose 5 cents a bushel on their present crop, and that hard winter wheat will be selling at 25 cents a bushel less than at present. Already millers are considering the establishment of bleaching stations in states where the use of bleached flour is not prohibited. Thus they say they may avoid the interstate commerce law.

## "IS LIFE WORTH SAVING?"

Mrs. Mollie McKenney, Prentiss, Miss., writes that she had a severe case of kidney and bladder trouble, and that four bottles of Foley's Kidney Remedy cured her sound and well. She closes her letter by saying: "I heartily recommend Foley's Kidney Remedy to any sufferer of kidney disease. I saved my life."—Schramm-Johnson Drugs.

## ASKS HEAVY DAMAGES FOR LOST COMPLEXION.

Denver, Colo., July 6.—For the loss of one complexion Mrs. Minnie E. Jones, wife of a Denver policeman, today entered suit for \$10,000 against Dr. Alice T. Moore.

According to Mrs. Jones, several months ago she was possessed of a "peerless" complexion, but her one bottle of Dr. Moore's medicine ruined the complexion by hypodermic injections.

Now, says Mrs. Jones, she not only still lacks complexion, but her face is all in a knot. That is, in various portions of her countenance are hard lumps, surrounded by large red spots. The lost beauty of her complexion, she says, is worth at least \$10,000 to her.

## MUST BE ABOVE SUSPICION.

Kidney and bladder ailments are so serious in their consequences, and if unchecked so often fatal that any remedy offered for their cure must be above suspicion. Foley's Kidney Pills contain no harmful drugs, and have successfully saved a long and thorough test.—Schramm-Johnson Drugs.

## SERVICES HELD FOR CHIEF JUSTICE FULLER.

Sorrento, Mo., July 6.—In the Episcopal church of the Redeemer, a little chapel surrounded by evergreen trees and only a short distance from "Midway," where the venerable chief justice had passed so many quiet and pleasant summers, was held this afternoon, the first funeral service for the late Melville Weston Fuller.

The church was thronged with relatives, men of national prominence, summer residents of Sorrento, Bar Harbor and other neighboring resorts.

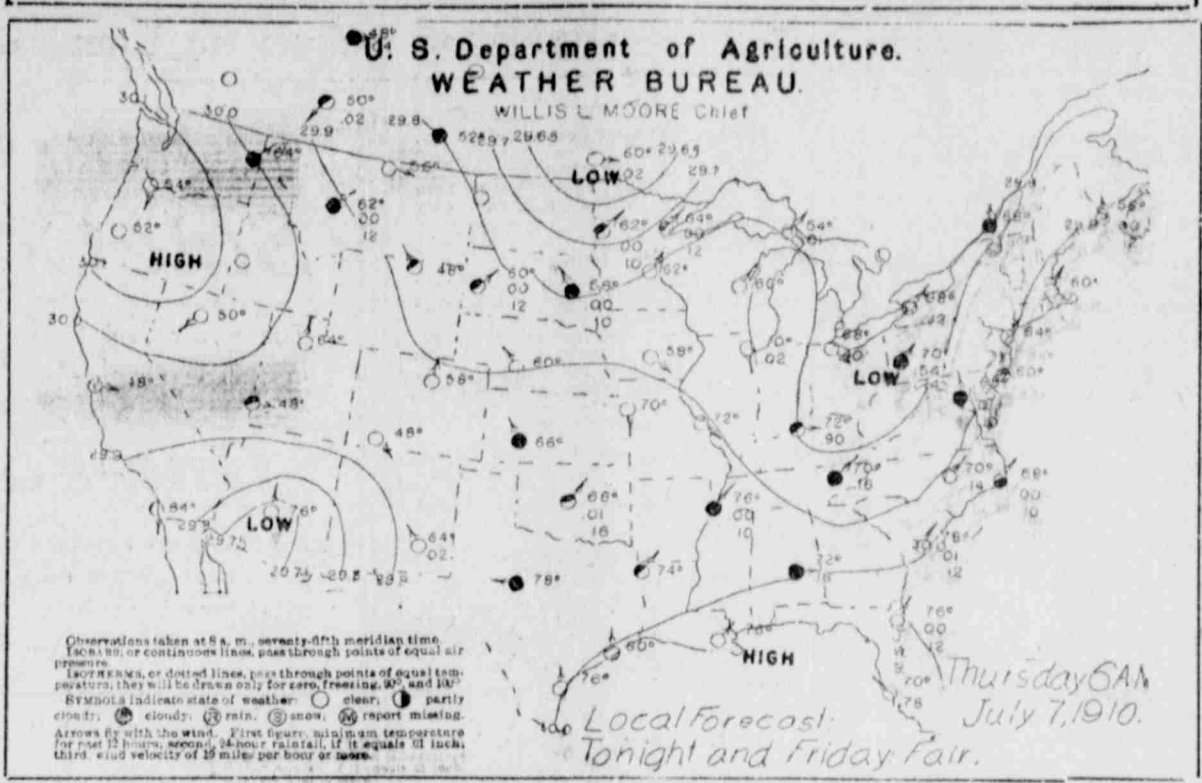

The casket was surrounded by floral tributes from relatives and friends, including a beautiful piece from President Taft.

According to the wishes of the late chief justice the funeral service of the Episcopal ritual was read by Rev. James E. Freeman of Minneapolis, who is in charge of the Church of the Redeemer, and is a close friend of the Fuller family.

The pall-bearers were Gov. Hughes of New York, Associate Justice Oliver Wendell Holmes and Joseph McKenna of the United States supreme court, United States Senator Eugene Hale, Gen. Thos. M. Hubbard of New York and Nathaniel L. Francis of Washington, a son-in-law of the justice.

With the exception of Mrs. Francis none of the five daughters was present. Following the services the body was taken on a steamer to Mount Desper, where connection was made with the late afternoon express which reaches Benton at 4:30 o'clock tomorrow morning. From there the body will be taken to Chicago, where another service will be held in Graceland cemetery chapel at 3:30 p. m. Friday afternoon. The body will be buried beside that of Mrs. Fuller, who died here six years ago.
